

Dr. Philip Young, double-board certified by the American Board of Facial Plastic and Reconstructive Surgery, and the American Board of Otolaryngology - Head and Neck Surgery

THE BALANCE OF BEAUTY

Your Face - it's your most important asset

methods or just eye-ball your features. But Dr. Young's theory of beauty, *Circles of Prominence*, is an award-winner for best basic scientific research paper in the field of Facial Plastic and Reconstructive Surgery 2005, winning the Sir Harold Delf Gillies Award.

Balance and harmony lead to a natural looking more **beautiful** you.

RESULTS

Dr. Young's award-winning theory, experience and state-of-the-art techniques combine to bring out your younger, natural-looking beauty. He points out that "the consequence of not

having the correct understanding of aesthetics is that a person can have results that leave them with oversized lips (which we have all seen) or eyebrows that are set too high resulting in a surprised look." Dr. Young adds, "I ask my patients to bring in photos from their youth because my aim is to bring back the younger and more beautiful version of themselves."

EVENTS - all events are free, just RSVP 425.990.FACE (3223)
